Speech and Language Therapist

We're looking for a Speech and Language Therapist to assess and treat children and adolescents with speech, language, communication, and feeding difficulties.

What You'll Do

- Assess speech, language, communication, and (where relevant) swallowing
- Deliver therapy for speech, language, and social communication difficulties
- Support children with autism, ADHD, developmental language disorder, and selective mutism
- Provide parent education and home communication strategies
- Liaise with schools on communication support

What We're Looking For

- Degree in Speech and Language Therapy from an accredited institution
- Holding a valid DHA licence
- 2–5+ years' experience working with children
- Strong assessment and report-writing skills

Nice to Have

- Experience in CAMHS or neurodevelopmental settings
- Arabic language skills
